

# SHEENA CUNDY - THE WITCH WAVELENGTH

## BEFORE

The witch wavelength is a magical vibration of thought, feeling and action. Although witches are already thinking, feeling and acting on this vibration, it fluctuates, because it is the nature of being human. Our human nature limits us, but our magical nature doesn't. And while there is a contrast between the limited and the unlimited, the real magic happens when the lines blur and those boundaries fall away.

To do this and work the magic we dream about we must raise our sights and step into the unlimited power available to us in order to raise our magical vibration on every level. Tuning in to the spirit and the nature of Air and Fire, Water and Earth, will give us a good starting point for our work. It will provide the foundations for an authentic spiritual path that spirals in and out as we journey ever deeper into nature and her magic through the power of our own magical nature.

## AFTER

We all have magic in our veins. But how do we access our magical frequency in a way that helps us realise our dreams?

How do we turn on that witch wavelength and become the magic?

Sheena Cundy has been practising witchcraft for the past twenty years. As a spiritual teacher and healer, she's been holding space for others to tune in to their magical nature for over a decade. In *The Witch Wavelength*, she binds her teachings together to help you tap into your magical nature too.

Based on the workings of the four elements – Air, Fire, Water, and Earth – *The Witch Wavelength: Tuning In To Your Magical Nature* offers practical tools and exercises to:

- empower you to access and unleash your inner magic,
- break down the power of intention, and
- realise your manifesting potential.

Ready to stop resisting the power within and embrace the magic that you are? Get your copy of *The Witch Wavelength* today.
